

THE PIOCHE WEEKLY RECORD.

VOL. LVI

PIOCHE, NEVADA, FRIDAY AUGUST 17 1906

NO 11

THE STATE OF NEVADA.

The Coming Mineral Empire of World and Pioche the Mecca of it All.

Some Interesting Observations of One of the Best Camps in the West.

Indeed the world has its eyes on Nevada and at last Pioche is receiving its share of attention. In every section of the state, from Humboldt to Tahoe lake, from Bodie to Bullfrog, from Searchlight to St George, from Pioche to Patterson, Black Horse Ely, Hamilton and the intermediate territory to Tonopah and Goldfield new and rich camps are being opened up and old districts being made to fairly hum with new developments. Verily the new era is on in Nevada, the state is alive with prospectors and investors, Nevada mining securities are the choice of the public and Pioche is the mecca of it all. Its past record for the number of years worked cannot be approached, its present development is in keeping with the advancement of the state and its new future has scarcely begun. It ores are as rich as any in the state and the average far exceeds many wonderful camps. The mineral area is measured by the mile and all the conditions for profitable and permanent mining is entirely favorable. It is a mineral empire within itself, possessing almost every element necessary for home reduction, with railroad transportation extending into it. One significant evidence of the great resources of this section is the fact that old Piochers, in view of the building of the railroad, are returning to invest here, and none have traversed the eastern world in search of mineral wealth

any more persistently and intelligently than the pioneer resident of this place. The estimate seems to pervade deeply the breast of every former inhabitant that Pioche will be the richest and most extensive mining camp in the State and they are among the first to return. This speaks louder than any word artist can paint and is worth the careful consideration of the most skeptical.

In view of the enormous production of former days, the small expense of extraction compared with other districts, the high values obtained, the proven ore occurrences and geological relations, it is no wonder this opinion prevails among those acquainted with the facts. But this is not all. Notwithstanding that a few mines in town have been worked to water level, the district as such has scarcely been scratched. In extent it runs from Condor Canyon on the east to Stampede Gap on the west with outlying districts on the side and further to the north and west. The same geological features prevail, the same cross fissuring obtains and the same ore occurrences are notable throughout the length and breadth of it.

All that is needed here to make Pioche and vicinity one of the noted mining camps of the world is brain and brawn backed up by reasonable capital to pursue developments.

STATE NEWS.

Items Gathered From Our Exchanges.

Reno is to have a \$300,000 brewery.

The Tonopah express now carries a diner.

There is talk of establishing a beet sugar factory at Lovelock.

A shipment of 16,000 lambs has been made from Reno to eastern cities.

The officers of Austin have ordered all rough characters out of town.

Walter Cook, a pioneer of this State died at Carson last Sunday of old age.

Gans and Nelson have been matched to fight at Goldfield in September.

Reno papers claim that Washoe county's taxable property exceeds \$10,000,000.

A Freight car loaded with nails was consumed by fire at Sparks last Sunday.

The Western Pacific is to build two new overland wire lines through Nevada.

Theodore Winters, a pioneer resident of Washoe county, died Friday of last week.

The mangled body of an unknown man was found on the railroad track near Golconda last Sunday.

The Secretary of Agriculture has sent a man from Washington to start a demonstration farm at Fallon.

The Western Union Telegraph Company is contemplating making improvements to its service in Nevada.

Mrs. Bessie Miller, a woman prospector, has been offered \$50,000 for her placer ground near Goldfield.

Work has halted on the State Library and Supreme Court building at Carson. Lack of steel is the cause.

Owing to a scarcity of labor the work on the irrigation canals in Churchill county will be delayed six months.

Thousands of range horses in eastern part of the State are being rounded up and shipped to the southern States.

Work on the steel cells in the State prison is progressing rapidly and they will be ready for the prisoners in a month.

WILL SETTLE WITH BOND MEN.

Governor John Sparks, State Controller Sam Davis and Attorney General Sweeney left yesterday morning for Tonopah to settle with the bondmen of the late Sheriff Logan, who was killed some months ago.

Sheriff Logan had embezzled several thousand dollars belonging to Nye County, but the fact that he was a defaulter was not known until after his death, and his books were examined.

His wife has offered to give over all his life insurance toward making up the amount and it is thought that the bondmen will make good the balance of the amount without any trouble. — Reno Gazette.

THE WORLD IS NOW

LOOKING TO PIOCHE.

Reminiscences of the Best Mining Camp in the West Now on the Verge of Repeating Itself.

The Pioche Daily Record of the "Seventies" a True Incentive of what may be Expected in the Near Future.

Vol. 1, No. 1 of the Pioche Record of Sept. 17, 1870 contains the following: "BULLION—There were shipped through Wells, Fargo & Co.'s Express during the week 26 bars, valued at \$30,499.19."

That Pioche will in a few years be the richest and largest producer of Mineral in the southwest is believed by those familiar with its resources and is being conceded by the coldest blooded mining engineers that ever turned down a good camp. These ideas are gaining strength largely on account of early railroad transportation direct from the mines to the smelters, the amount of development now going on by different companies, the elaborate works in contemplation, and the aggressive campaigns being mapped out by large concerns, and the records of the past production of the camp sustain it all.

A new era is upon us, the metallurgical age is far advanced towards perfection, railroads have accomplished wonders in commercializing the various resources of Nevada, and no section in the west is more bountifully blest with them than Pioche and surrounding country. The area of mineralization here is extensive, the ore occurrences are regular and generous and the values are commercially profitable under most any condition.

Pioche can no longer be regarded as out of the world. It is on the railroad map and with the surrounding territory is a mineral empire, possessing all the fluxes in abundance and other elements necessary for extensive reduction works of any capacity or design.

Its geology is the strongest known to mining students, and its mineral extent can only be contemplated after years of careful research and sober thought. That the rumble of the railroad, the study sound of the stamp mill, the nightly glare of huge smelters, the efficiency and brilliancy of electrical works, and the consequent bustle of business will be matters of fact within a few years is plainly seen by those who take time to look.

Then why should not Pioche be the metropolis of the intermountain southwest?

It will be the shipping point of a large and rich mineral belt for several years to come. It will be the supply point, the center of reduction works and always the best camp in Nevada.

This is not half of what may transpire here before one can fully realize it. We have been studying these things for years and would like to talk the matter of investment over with you. It might be the means of making us all a few dollars.

PIOCHE REALTY & BROKERAGE COMPANY.

E. P. Gordon, Manager.

C. W. Garrison, Secretary and Treasurer.

We Sell, Buy and Rent Real Estate, Bonds, Mining Stocks, etc
RECORD OFFICE, PIOCHE, NEV.

Following is a list of some of the Bargains.

Three lots on north main street with shade trees, at a bargain.

A GENUINE BARGAIN—A one and a half story brick lodging house, nine large newly furnished ground floor rooms, carpet throughout, stove in every room and front and back door entrance. This property is situated in a settled and profitable mining camp with over 300 men on the payroll and is now bringing in 50 per cent on the investment. It is insured for \$1,700 or less than three-fourths of its value but will take \$2,000. Lots 118 feet front 120 ft back.

Nine lots on Lacour Stacknow-ledge the most desirable residential portion of Pioche.

One 4 room house on upper main street, lot 50 x 125—well finished on inside, good cellar, out building, etc—close in—a good buy.

One saloon building 25 x 50 ft—large rock cellar in rear 25 x 30—some repairs necessary—will make splendid store room. Also one lot adjoining 25 x 100 with good cellar. One lot 25 x 100 and building with complete brewery outfit—all on main street and splendidly located for any kind of business.

FOR PROSPECTORS—A two seated spring wagon, complete with neck yoke and new seat suitable for prospecting or light ranch use. A bargain.

10,000 shares of Little Mendah stock at sacrifice. The Little Mendah group of four full claims is one of the best prospects in Highland district.

A nice new profitable merchandise business in a rapidly rising mining camp. Will invoice about \$2000. Entire stock has been turned inside of 30 days. Pays 50 per cent on the investment. Good reasons for selling. A bargain for the right person.

Forfeiture Notice.

Fay, Nevada, May 5, 1906

TO GEORGE E. COXE: You are hereby notified that I have expended during the year 1905, \$100 in labor and improvements upon the Uteva Loe Mining Claim in Eagle Valley Mining District, Lincoln County, State of Nevada, the location certificate of which is found of record in Book P, Pages 478 and 479 in the office of the Recorder of said County.

Said labor and improvements being done and made in order to hold said claim under the provisions of Section 2324 of the Revised Statutes of the United States and the amendments thereto, concerning annual labor upon mining claims, being the amount required to hold said mining claim, for the period ending on the 31st day of December, A. D. 1905.

And if within ninety days from the personal service of this notice or within ninety days after the publication thereof in accordance with said section 2324, you fail to refuse to contribute your portion of such expenditure as a co-owner, your interest in the claim will become the property of the subscriber, your co-owner, who has made the expenditure required by the terms of said section 2324, your share of said \$100 being the sum of \$33.33.

C. A. SHORT

In an advertisement in the Richfield, Utah, Reeper, we find the following: "We take eggs the same as money". I guess we would take a few ourselves at present if we knew where to find them.

Registration Notice.

Notice is hereby given that the Book of Registration for the General Election to be held November 6th, 1906, for the election of State, County and Township officers, are now open, and will remain open daily on all legal days from 10 o'clock A. M. until 6 o'clock P. M. until September 10th, 1906, and from August 31st, 1906, until September 10th, 1906 from 7 o'clock P. M. until 9 o'clock P. M. in addition to the hours heretofore mentioned.

The law requires naturalized citizens to exhibit their certificates of naturalization at the time they present themselves for registration.

JUSTICE TO WIFE BEATER.

That Goldfield justice of the peace who invoked the old Nevada law in reference to wife beaters in order to mete justice to a man of ilk has the respect and deep-seated admiration of every right thinking person in the state.

The man who will strike and beat a frail and defenceless woman, the one who he has sworn and promised to cherish and protect, not only deserves the punishment of imprisonment, but the contumely and disgrace resulting from the "post" as provided by Nevada law. He has forfeited all right of urging the inhumanity of his chastening.

The law providing for the punishment is patterned, no doubt after that of New Jersey where wife beaters are tied to a post and publicly lashed. Our statute is a modification providing that the offender be tied to a pillar in a public place for at least two hours a day with a placard across his bosom: "Woman Beater" or "Wife Beater."

The scathing arraignment by the justice in the Goldfield case deserves to be quoted, the language being as follows:

"You have the outward appearance of a man, but I think you must be a mere brute of the lowest order. To beat any woman is beneath the most depraved man, but to kick and cuff your wife, the mother of your children, your faithful and uncomplaining companion through all the trouble and hardships of life, is a crime so monstrous that words fail to express my supreme contempt and loathing for you."—Carson News.

Jim Knight came over from Fay yesterday. He is making more money than he can take care of and had to buy a safe and take it home with him.

CHANGES IN THE COUNTIES

Ex-Senator Wm. M. Stewart who several months ago, took up the matter of forming a new county in southern Nevada to be called Bullfrog, with Rhyolite, Beatty, Bullfrog or some other live camp as the county seat, has drawn a bill which he will have introduced in the next legislature which if it passes, will accomplish this end. Not only does he contemplate the formation of a large new county but expects to revise the boundaries of Nye, Esmeralda, Lincoln, White Pine, Lander and Eureka counties. His scheme would greatly reduce the size of Esmeralda, Nye and Lincoln but they would still be left several times larger than some of the eastern states.

The two most important effects of the measure would be to take Bullfrog from Nye and give it to Bullfrog county and the removal of the Goldfield country from Esmeralda to Nye county. While Nye might consent to such arrangement it is certain that the northern part of Esmeralda would make strong objection.

The bill would have the effect of creating another huge county in Nevada. The intention is to call it Bullfrog after the celebrated mining district in south western Nye which would give it its chief population.

To make up its territory 1,152 square miles would be taken from northern Esmeralda county 4,536 square miles from northern Nye county and 5,536 square miles from southern Lincoln county a total of 11,361 square miles.

Almost every excavation in this district has been examined by a member of this firm, and reports on the different properties can be obtained at this office. Can we not interest you in mining here? Pioche Realty & Brokerage Co.
